PREFACE

For the 1983 Follow-Up Survey, the reporting format has been changed with the only written analysis being confined to a lengthened Executive Summary.

There will be four separate reports produced. The 1983 Manitoba Community College Follow-Up Survey of 1982 Graduates; All Colleges Report contains the aggregate results of all graduates from all colleges. As in the past, major labour market outcomes are broken down by student characteristic variables and major program division as are other areas such as the migration of all graduates and continuing education plans. A section containing the time-series trends from past survey years has also been added.

Separate reports have also been prepared for each Community College. Each report contains the results for that college concerning the labour market outcomes of graduates broken down by student characteristics and major program divisions and includes the migration of graduates, continuing education plans and labour market outcome profiles for each course.

The Manitoba Community College Follow-Up Survey has been undertaken by the Research and Planning Branch of the Department of Labour with assistance from the Programming Branch, Department of Education and the Management Information System Branch for the Community Colleges, Department of Education.

EXECUTIVE SUMMARY

The major objective of the 1983 Manitoba Community College Follow-Up Survey is the assessment of the post-training labour market experiences of community college graduates. Survey results are summarized and then used for manpower planning and forecasting, the development of background information for educational program assessment and program planning, and also to provide information concerning the outcomes of Manitoba community college education which counsellors and students may use for career decision-making.

For Assiniboine Community College, a total of 501 graduates who had completed their training in two-year diploma, one year or less certificate courses and some short courses during 1981-82 were surveyed in the summer of 1983. This year's survey included twenty-six courses from Assiniboine Community College. Graduates returned 305 surveys. A further sixty-three graduates could not be located. The response rate for Assiniboine Community College graduates for the 1983 survey was 69.6%.

Major survey highlights for Assiniboine Community College graduates include:

- * at the time of the survey, the labour market participation rate was 94.8% with an unemployment rate of 10.7%
- * average weekly earnings of employed graduates were \$268.12 or \$7.01 hourly. Average hours worked per week were 38.4 hours
- * of employed graduates, 90.9% were working in Manitoba
- * of the employed graduates, 64.5% were working in jobs related to their community college training
- * 68.5% of employed graduates were using skills obtained through training to a great extent or to some extent in their present jobs
- * major occupations of groupings of employed graduates were Product Fabricating, Assembling and Repairing Occupations (17.0%), Occupations in Medicine and Health (19%) and Clerical and Related Occupations (16.2%)

- * major industries of employment were Health and Social Services (27.0%), Retail Trade (11.9%), Wholesale Trade (11.5%) and Manufacturing (10.7%)
- * on average, it took graduates 6.7 weeks to obtain their first job after graduation
- * 25.9% of the graduates indicated that they were presently attending or planning to take continuing education credit or non-credit courses
- * at the time of the survey, 6.8% of graduates were registered as apprentices, while 7.0% had planned to enroll as apprentices in the future.

**SUMMARY PROFILE OF OUTCOMES FOR 1982 GRADUATES
FOR ASSINIBOINE COMMUNITY COLLEGE**

Dear Community College Graduate:

The Research and Planning Branch, in cooperation with the Manitoba Community Colleges, is again undertaking a follow-up survey of all community college graduates who completed their training between July 1, 1981 and June 30, 1982.

The purpose of this survey is to obtain information from graduates on the following areas: (1) labour market experiences, and (2) to what extent graduates are using skills obtained through training in their present jobs.

By taking a few minutes to complete the attached survey, you will be providing valuable information to the Department of Labour and Employment Services and the Manitoba Community Colleges for use in educational planning.

Your responses will be kept strictly confidential. Your answers will be combined with those of your fellow graduates to provide an overview of community college education.

Once you have completed the survey, please return the questionnaire in the enclosed postage-paid self-address envelope.

Your assistance would be greatly appreciated and would contribute to the success of this important study.

Thank you for your time and attention.

Yours truly,

A handwritten signature in dark ink, appearing to read "J.E. Nykoluk".

July, 1983

Dear Community College Graduate:

Approximately one month ago you received a survey from the Research and Planning Branch, Department of Labour and Employment Services. The purpose of this survey of community college graduates was to obtain information on your labour market experiences and your use of the skills obtained in your community college training.

As we have not yet received a completed questionnaire from you, we have enclosed another survey and a self-addressed, postage-paid envelope for your convenience.

The success of our research depends upon your prompt reply. We are looking forward to including your valuable responses in our study. Let us reassure you that your responses will be kept strictly confidential. Your answers will be combined with those of your fellow graduates to provide an overall view of community college education in Manitoba.

Thank you very much for your time and attention.

Yours truly,

A handwritten signature in dark ink, appearing to read "J. E. Nykoluk". The signature is fluid and cursive, with a large initial "J" and "N".

DEFINITIONS

CANADA EMPLOYMENT SPONSORED STUDENTS - Those individuals who were referred into training by Canada Employment Centres under the Canada-Manitoba Adult Occupational Training Act Agreement. These individuals are referred into training courses of one year (or less) in duration.

CERTIFICATE COURSES - Certificate courses requiring Grade 10 to 12 and are awarded for the successful completion of courses of one year or less in duration.

DIPLOMA COURSES - Post-secondary, non-university courses of two years in duration requiring, as a course prerequisite, a Manitoba Grade XII (or acceptable equivalent). Diplomas are awarded for successful completion of two year courses.

EMPLOYED - The employed includes all persons who at the time of the survey, reported themselves to be employed, self-employed or working for a relative (for example, on the family farm, or fishing).

EMPLOYMENT/POPULATION RATE - The employment rate represents the number of employed persons as a percentage of the total population (working age).

LABOUR FORCE - The labour force is composed of that portion of the population 15 years of age and over who, at the time of the survey, were employed or unemployed.

NOT IN THE LABOUR FORCE - That portion of the population 15 years of age and over who, at the time of the survey, were neither employed nor unemployed.

PARTICIPATION RATE - The participation rate represents the labour force as a percentage of the population 15 years and over.

PROVINCIAL ENTRY STUDENTS - Those individual fee-payers who are not referred into training by Canada Employment Centres. These individuals may participate in training courses of both two years in duration, one year (or less) in duration or short courses.

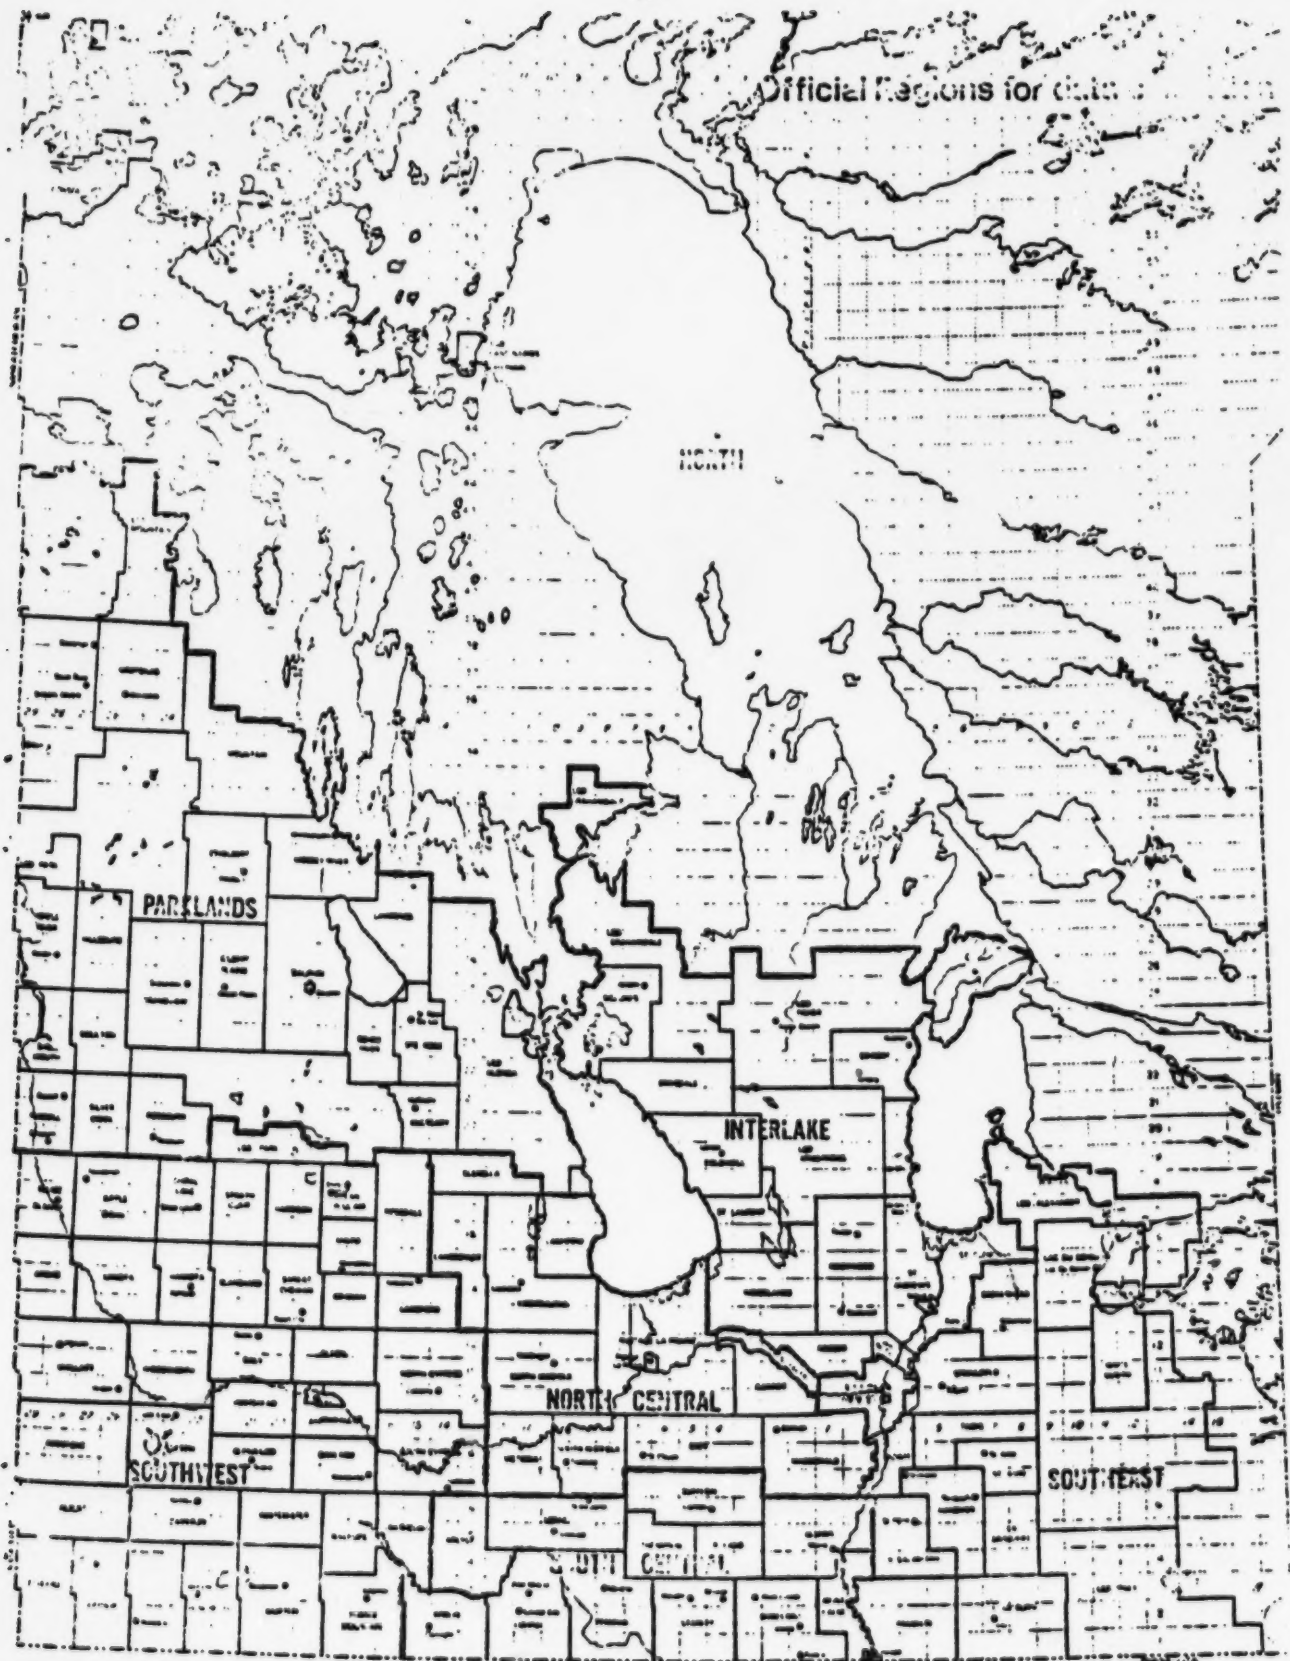

SHORT COURSES - Includes refresher/up-grading courses, equipment operating courses and medical technology courses which have a term of hospital based training after completion of college training.

UNEMPLOYED - The unemployed includes those persons who, at the time of the survey, reported themselves to be unemployed and looking for work.

UNEMPLOYMENT RATE - The unemployment rate represents the number of unemployed persons as a percentage of those survey respondents indicating themselves as part of the labour force.

GEOCODE REGIONS - The geocode regions are the official regions for data collection within the Province of Manitoba. They are created by combining the census divisions in which students indicated they lived before and after training and also where they were employed.
